

Product End of Life Instructions

PowerLogic PFC Capacitor Bank

Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

⚠ WARNING

HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
 - Use all necessary personal protective equipment such as gloves and goggles.
- Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	EOLI document number
To be depolluted	1	Power Factor Controller	696	ENVEOLI1509016_V1

To be depolluted	8	Shunt release for CB	120	-
To be depolluted	9	Safety and Isolation Transformer	7044	ENEOLI130213EN
To be depolluted	10	Miniature Circuit Breaker	244	-
To be depolluted	11	Cartridge Fuse + Holder	123	-
To be depolluted	12	Ventilation Varset Kit	6000	-
Potential hazards	13	Rotary Handle	903	ENVEOLI2204005_V1

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The entire Power Logic PFC range offers a unique combination of abilities to give you more convenience, reliability and performance across a broad of applications. And reduce CO2 emission.
Product reference	VLVAF2P03512AA
Total representative product mass	260000 g
Representative product dimensions	H 1400 mm x L 800 mm x D 600mm
Date of information release	02-2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	82% <p>The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).</p>
