

OBICO 5,4W 550lm 927/930/940 IP65 DIM Blanc  
0005363

Caractéristiques de la gamme

• OBICO 5,4W 550lm 927/930/940 IP65 DIM Blanc - Spot d'accentuation LED étanche à l'air répondant aux exigences des réglementations RE2020 (label BBC). Recouvrable d'isolant déroulé ou projeté. Diamètre d'encastrement 68mm. Connecteur rapide repiquable (LiLo). Dimmable. Orientable à 360°. 3 températures de couleur 2700K, 3000K et 4000K. IRC90. Flux lumineux 550lm. Puissance consommée 5,4W. Efficacité lumineuse 102lm/W. IP65/20 - IK07. Groupe de risque photobiologique RG1. Classe II. Durée de vie : 100 000h (L80B10). Garantie 5 ans. Sylv...

| Ecosystem           | 17            | 43.0                    | 1.6        | 2.5 to 4.0               | Excellent circularity                        |
| Overall performance | 70.1          | 247.5                   | 1.10       |                          |                                              |

Technical Memorandum (TM) 66 describes a Circular Economy’s main aims, how it can be achieved and what it’s practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)’s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :  
Manufacturing :  
Materials :  
Ecosystem :
- Covering topics such as design for long life and repair  
Additive and subtractive techniques and localisation  
Usage of recyclable materials rather than virgin  
Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product’s performance in the context of a Circular Economy
