PREPROGRAMMING A CONTROL POINT

Complete instruction guide available online on www.somfy.info

DIRECTION OF ROTATION

The rotation direction of the drive self-adjusts automatically during the first few cycles.

2 AUTOMATIC MODE

Roller shutter with rigid links and with stops

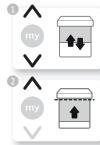

No setting to be performed: the end limits are set automatically.

END LIMITS SETTING

MANUAL MODE

Roller shutter without rigid links and without stops

SEMI AUTOMATIC MODE

Roller shutter without rigid links and with stops

Roller with rigid links and without stops

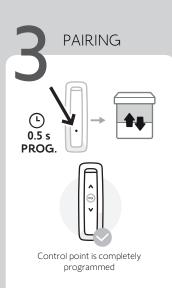

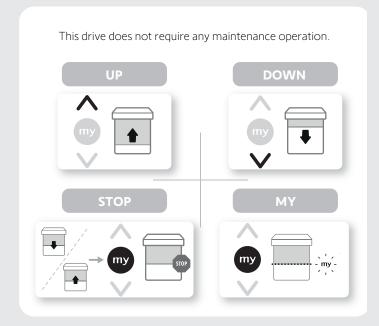

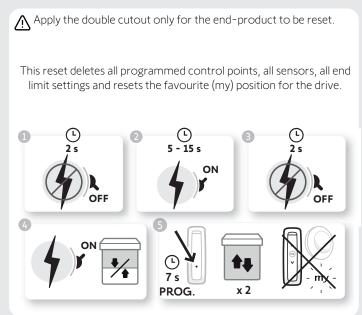

INSTRUCTIONS TO BE RESPECTED

These instructions apply to all S&SO-RS100 io drive, the different versions of which are available in the current catalogue.

FIELD OF APPLICATION

The S&SO-RS100 drives are designed to drive all types of roller shutters. The S&SO-RS100 drives are designed to motorise all types of:

- Window roller shutters with stackable slats which curtain can be lifted at least by 4cm when an upward force of 150 N is applied to the bottom lath positioned at 16 cm from the fully unrolled position.
- $Window roller shutter controlled by a control point without locking, installed within sight of closing but away from moving parts and at a height of at least 1.50\,m.$
- $Window \ roller \ shutter \ with \ an \ end \ closure \ zone \ located \ at \ a \ height \ in \ excess \ of 1.80 \ m \ from \ the \ ground \ or \ any \ permanent \ access \ level.$

If the roller shutter is equipped with openwork slats, a 5 mm diameter rod must not pass through the openings.

LIABILITY

instructions document must also be observed.

home automation professional, according to automation professional. instructions from Somfy and the regulations If in doubt when installing the drive, or to obtain commissioned

It is prohibited to use the drive outside the field of application described above. Such use, and any failure to comply with the instructions given in this guide and in the attached Safety instructions document, absolves Somfy of any liability and invalidates the warranty.

The installer must inform its customers of the SAFETY INSTRUCTIONS FOR WIRING Please read these instructions carefully before operating and maintenance conditions for the drive installing and using the drive. In addition to and must provide them with the instructions for use following the instructions given in this guide, the and maintenance, and the attached Safety instructions detailed in the attached Safety instructions document, after installing the drive. Any After-Sales Service operation on the drive The drive must be installed by a motorisation and must be performed by a motorisation and home

applicable in the country in which it is additional information, contact a Somfy adviser or go to the website www.somfy.com.

Cables which pass through a metal wall must be protected and isolated using a sheath or sleeve.

Attach cables to prevent any contact with moving parts.

 $\stackrel{\textstyle ext{4.5}}{\text{1.5}}$ If the drive is used outdoors, and if the power supply cable is a type H05-VVF cable, the cable should be installed in a UV-resistant duct, e.g. under a gland.

Leave the drive power supply cable accessible: it must be possible to replace it easily.

Always make a loop in the power supply cable to prevent water entering the drive.

The drive must be installed by a professionally qualified person (electrical specialist according to DIN VDE 1000-10) for drives and automations in the building services sector in accordance with the Somfy instructions and the applicable regulations in the country of commissioning.

SPECIFIC INSTRUCTIONS FOR ASSEMBLY

Frequency bands and Maximum power used

S&SO-RS100 io : interior diameter of the tube has to be Ø 47 mm or greater.

Radio frequency

868-870 MHz io-homecontrol® two-way Tri-band.

868 000 MHz - 868 600 MHz e r.p. <25 mW 868.700 MHz - 869.200 MHz e.r.p. <25 mW

Power supply

869.700 MHz - 870.000 MHz e.r.p. <25 mW

230 V ~ 50 Hz

SOMFY ACTIVITES SA, 74300 CLUSES FRANCE as manufacturer hereby declares that the drive covered by these instructions when marked for input voltage 230V~50Hz and used as intended according to these instructions, is in compliance with the essential requirements of the applicable European Directives and in particular of the Machinery Directive 2006/42/EC, and the Radio Directive 2014/53/ EU. The full text of the EU declaration of conformity is available at www.somfy.com/ce.Philippe Geoffroy, Approval manager, acting on behalf of Activity director, Cluses, 01/2021.

We care about our environment. Do not dispose of the appliance with usual household waste. Give it to an approved collection point for recycling.
