

CL-40010

Permanent voltage indicator

Series: CL-40010-...

////////////////////////////////////

Application :

- Permanently illuminated voltage presence indicator for indoor use.

Features :

- Single-pole indicator for voltage range from 5 to 75 kV.
- Housing mounted on an articulated rod to adjust the orientation of the LEDs.
- Mounting bracket suitable for conductors:
 - Round from Ø 5 to 20 mm.
 - Thickness plates from 1 to 20 mm.
- Luminous signalling by 7 LEDs.
- Outside diameter of the housing: 40 mm.

Composition :

- Packed by 3 in cardboard box.
